Panasonic ideas for life USA

SR-42FZ

Rice Cooker with Automatic Cooking Feature

- **This Electric Rice Cooker can prepare up to 46 Cups of Cooked rice.**
  (Approximately 94 3 oz. portions)
- **Thermostat for Precise Temperature Control**
  A built-in thermostat maintains heat at a precise and uniform level
- **Direct Heating System**
  A special sheathed heating element heats the bottom of the pan directly to minimize heat loss and save energy.
- **Cooking Indicator**
  The Cooking light indicates cooking is in progress and automatically extinguishes when cook time is complete.
- **One Step Automatic Cooking**
  With just the press of a button, your rice is cooked to perfection.
