MATERIAL SAFETY DATA SHEET (MSDS)

1. PRODUCT AND COMPANY IDENTIFICATION

Common name: Home Legend Bamboo Flooring
Trade name: Bamboo Flooring, 5/8"
Manufacturer: Home Legend, LLC.
13825 Norton Ave,
Chino, CA 91710
Telephone: 877 630 1800

2. COMPOSITION AND INFORMATION ON INGREDIENTS

Composition: Bamboo
Ingredient Name: Formaldehyde
CAS-nr.: 50-00-0
Free Emission: <0.05ppm
Health: -
Risk: -

3. HAZARDS IDENTIFICATION

Installation of Home Legend Bamboo Flooring:

When cutting, make sure you operate on a steady support.

4. FIRST AID MEASURES

Installation of Home Legend Bamboo Flooring:

If bleeding should occur due to cutting, use bandage under compression to prevent further bleeding.

If bleeding doesn't stop, seek medical attention.

If eye irritation occurs due to repeated exposure of the eyes to dust from cutting, rinse immediately with plenty of water.

Cutting dust can be removed from skin by water and soap.

5. FIRE AND EXPLOSION DATA

Home Legend Bamboo Flooring is considered hardly inflammable.

Auto ignition Temperature: Variable; typically 200 ~ 260 °C (400 ~ 500 °F)

Fire fighting media: Water, dry chemicals or foam.

6. ACCIDENTAL RELEASE MEASURES

Not applicable.

7. HANDLING AND STORAGE

Home Legend Bamboo Flooring is to be stored under roof, away from rain and snow.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Installation of Home Legend Bamboo Flooring:

When cutting with a motorized cutting tool or electrical saw, make sure to employ the personal protection outfit/equipment recommended by the tooling manufacturer (safety glasses, gloves etc.). Minimize skin contact to dust. Wear dust protective mask when ventilation is inadequate. Gloves suitable for protection against cuts from rough, sharp edges are recommended.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Solid material; Multi-layer Bamboo

Color: Various colors/patterns; otherwise not applicable

Odor: Not applicable

Solubility description: Insoluble in water and oil

Density: Approx. 750~900 kg/m³

PH-value, cons. solution: Not available

10. STABILITY AND REACTIVITY

Home Legend Bamboo Flooring is considered stable and not reactive. It will not undergo any hazardous polymerization.

11. TOXICOLOGICAL INFORMATION

Home Legend Bamboo Flooring is considered not dangerous for humans.

12. ECOLOGICAL INFORMATION

Not applicable.

13. DISPOSAL CONSIDERATIONS

Home Legend Bamboo Flooring can be left at ordinary disposal sites/containers. The Bamboo Flooring can be recycled.
