Inspect contents of the box to ensure all parts are included and undamaged.

FOR COVERS, ACCESSORIES AND OTHER PRODUCTS, PLEASE VISIT US ONLINE AT:

www.BRINKMANN.net
Choose a good, cleared assembly area and get a friend to help you put your grill together. Lay cardboard down to protect grill finish and assembly area.

⚠️ CAUTION! Some parts may contain sharp edges. Wear protective gloves if necessary.

Step 1
Unfold the cart and lock into place.

Step 2
Attach the tank holder to the cart by placing keyholes over bolts, slide down into place and tighten securely.

Step 3
Remove wing nut from tank holder bracket bolt. Attach tank holder to tank holder bracket using pre-attached wing nut.
Step 4
Press large front plastic foot onto bottom of front left side cart leg. Press small back plastic foot onto bottom of back left side cart leg.

Step 5
Insert the wheel assembly through the cart leg. Secure wheel assembly with cotter pin.

Step 6
Insert the accessory tray into the tracks as illustrated.
Note: When performing Step 7, Lift grill body from front and rear panels to avoid injury to hands and fingers.

Step 7

With the help of a friend, place grill body assembly on assembled cart frame. Rotate the bracket up as illustrated. Tighten pre-attached bolts to lock into place.
Step 8
Attach front panel to side burner by inserting pre-attached bolts on side burner into the keyholes on the front panel. Tighten bolts securely.

Step 9
Attach front panel to left side table by inserting pre-attached bolts on the side table into the keyholes on front panel. Tighten bolts securely.
Step 10
Remove M6 X 12 mm bolt from left side of control panel. Attach the side table assembly to the left side of firebox. Place table over bolts and slide toward back of grill, then tighten securely. Attach left side table front panel to grill body using the removed M6 X 12 mm bolt.

Step 11
Remove M6 X 12 mm bolt from right side of control panel. Attach the side burner assembly to the right side firebox. Place side burner assembly over bolts and slide toward back of grill, then tighten securely. Attach side burner front panel to grill body using the removed M6 X 12 mm bolt.
Step 12
Insert the side burner valve assembly through the holes in the side burner front panel, then firmly seat the valve nozzle into the burner venturi. Rotate burner valve assembly counterclockwise to lock in place with keyholes. Then tighten pre-attached bolts. Place the side burner control knob on the side burner valve stem.

Note: Tighten the bolts on the burner assembly bracket securely.

Step 13
Place the side burner grate onto the side burner table.

Step 14
Attach side burner igniter lead wire to the electrode as illustrated.

Warning: Never use your grill without leak testing all gas connections and hoses. See the section on “Leak Testing” in this manual for proper procedures.
Step 15
Insert grease tray into tracks on backside of grill. Hang grease cup from brackets on bottom of grease tray.

Step 16
Place the heat distribution plates on lower level of grill body assembly directly above burners.

Step 17
Place cooking grates on support ribs directly above heat distribution plates.

Step 18
Place warming rack in brackets so that it sits above the cooking grills.
