

# Tile Sealing and Cleaning

**PROTECT YOUR  
TILE AND STONE  
INSTALLATION**

## SEALERS

Prevent oil and water-based stains.

## ENHANCERS

Seal and enrich the natural highlights of stone.

## CLEANERS

Non-acidic cleaners won't harm your tile stone or grout.

# Sealers

## Why seal?

Stains on your stone, tile or grout happen easily – juice, mustard, olive oil and dirt can leave permanent stains.

Protect your surface against both oil-based and water-based stains with the right sealer. Sealing also makes everyday clean-up easier.

## Professional protection against stains.

### Sealer's Choice® Gold

- Maximum stain protection in less than 4 hours
- Penetrating sealer for natural stone, tile and grout
- Aqua Mix Cleaner & Resealers are ideal for on-going maintenance (see Cleaners page)

# Enhancers

## How do enhancers work?

Enhancing sealers enrich the natural highlights of stone and tile adding contrast to it's beauty and texture.

Enhancing sealers also rejuvenate the color and Improve the appearance of worn and weathered surfaces.

## Professional enhancer and sealer.

Enrich'N'Seal™

- Premium color enhancer and sealer
- Formulated to darken, enrich, and highlight the character and beauty of unsealed natural stone
- No sheen

Non-Enhanced Stone

Enhanced Stone

# TILELab®

## Seals and enhances the look.

### Sealer & Enhancer

- Enrich the color and texture of tumbled, honed or natural stone
- Penetrating sealer resists dirt and stains

## Seals with a gloss finish.

### Gloss Sealer & Finish

- Apply a high gloss, protective finish to Saltillo, slate, unglazed tile and porous natural stone
- Beautifies and seals while providing scuff, mar and scratch protection

## Seals with a matte finish.

### Matte Sealer & Finish

- Apply a low-sheen, natural-look, protective finish to Saltillo, terra-cotta, slate, flagstone and other porous natural stone
- Beautifies and seals while providing scuff, mar and scratch protection

# Cleaners

## Beware of acid-based everyday cleaners!

Everyday cleaners that are acid-based – especially those containing lemon, acid, bleach or vinegar – may visibly damage or etch some types of stone, tile and grout. Use everyday cleaners that are non-acidic and non-abrasive, or specially formulated for stone, tile and grout.

## Professional cleaner and resealers.

Polished Granite Cleaner & Resealer

Marble, Travertine, Limestone & Slate Cleaner & Resealer
