- **Start-Up Wizard:** Ensures quick and simple setup
- **HDMI Port:** Enables highest resolution viewing options
- **1 TB A/V Rated Pre-Installed Hard Drive:** Save up to 1TB of video or expand hard drive up to 3TB
- **PC & MAC Compatible:** Flexibility to use system with either PC or MAC computers
- **Connect up to 4 More Cameras:** Customize the system by adding up to 4 more cameras

Overview

Q-See's QC588-4E4-1 compact 8-channel DVR with a 1TB pre-installed hard drive features state-of-the-art 960H resolution for a truer, larger image size of 960 x 480 pixels for even more detailed viewing. This surveillance bundle comes with four high-resolution 700TVL bullet cameras boasting an effective pixel size of 756 x 504. With the addition of high-quality infrared cut filters, images will be bright at night while colors are true-to-life during the day. The indoor/outdoor cameras are weatherproof for greater durability and long-lasting use. Each of the four cameras comes with 60' of standard BNC cable, 3-axis anti-vandal mounting brackets and kits that allow for precise positioning and protect the cables by safely routing them securely through a wall or ceiling. Q-See's 30 fps recording provides smooth, continuous, and

uninterrupted video for unsurpassed detail and clarity.

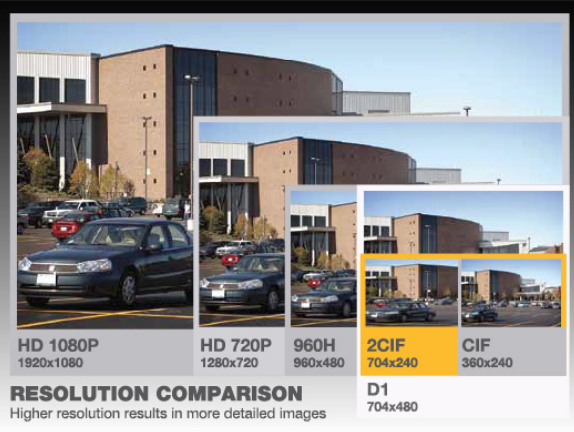

Q-See's new compact QC588 DVR boasts all the same state-of-the-art features and technology as a conventional DVR but without all the bulk. With an array of remote monitoring features, this DVR keeps you connected. Receive email alerts with incident snapshots when motion is detected or even when a camera

loses video. With free apps from Q-See for your smartphone or tablet, peace of mind is at your fingertips!
Cutting-edge Features:

- 960H recording technology captures a wider, undistorted image in order to provide an accurate aspect ratio and more detailed video.
- Q-See's start-up wizard features step-by-step setup making complete protection easier than ever.
- Real-time recording accommodates up to 30 frames per second on each of its 8 channels and delivers smooth, continuous and uninterrupted video that reveals details not visible to the naked eye.
- The QC588's compact and sleek design offers additional protection against tampering and theft without sacrificing performance.

As a leader in innovation, Q-See is the trusted leader in surveillance solutions for home and business, delivering peace of mind anywhere, anytime. Q-See's surveillance systems are carefully constructed with the highest engineering standards to deliver unbeatable reliability, quality, and satisfaction!

Highlighted Features

RESOLUTION COMPARISON
Higher resolution results in more detailed images

HD 1080P 1920x1080	HD 720P 1280x720	960H 960x480	2CIF 704x240	CIF 360x240
			D1 704x480	

960H Resolution

960H provides 534% more viewing pixels (960x480 pixels), which translates into a higher resolution image with amazing detail. Capturing video using a 960H DVR produces exceptional viewing on a wide screen monitor or TV screen, while also maintaining image integrity and minimizing distortion. Q-See's 960H technology allows extreme flexibility as it allows switching between all recording modes: CIF, D1, and 960H!

Remote Monitoring

Rest easy and keep an eye on your home or business from anywhere, 24/7 with remote monitoring.

- Access live and previously recorded video as well as the DVR's settings
- Receive instant email alerts and snapshot images when motion is detected, or if video loss occurs.
- Allows up to 20 simultaneous users
- Dual-stream technology for reduced-bandwidth connections
- Includes free MyQ-See.com dynamic DNS URL

Compatibility:

- Smart Phones: free Q-See apps available for iPhone, iPad, Android and Windows 7.5/8 phones.
- Operating Systems: Windows XP, Vista, 7, 8 and Mac OSX 10.7 & 10.8
- Internet Browsers: Internet Explorer, Safari (for Mac), Firefox (with IE plug-in), and Chrome (with IE plug-in). Free Multi-System Software allows DVR monitoring regardless of browser.

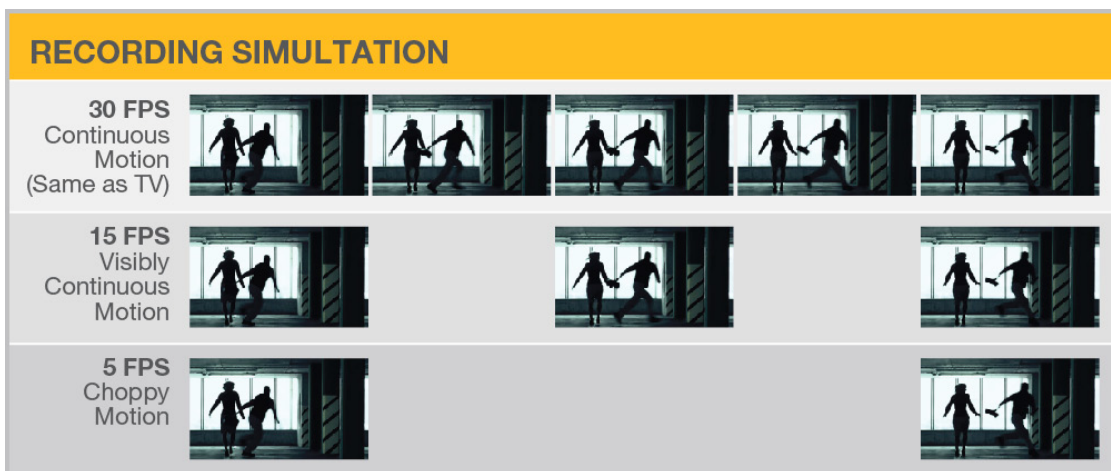

Start-Up Wizard

Installing a surveillance system has never been easier with Q-See's integrated Start-Up Wizard. The wizard is automatic and begins assisting you as soon as the DVR is powered up for the first time. The on-screen guide advances step-by-step to help ensure your DVR settings are optimized for your particular situation. Even configuring the remote monitoring features is now straightforward.

True 30 Frames Per Second (FPS) Recording

This DVR records at a verified 30 FPS allowing completely smooth playback with continuous motion in order to ensure every detail is captured.

ADDITIONAL CAMERA SPECIFICATIONS

1/3" Q-See Clear View Image Sensor

Expect clear, crisp images day or night as a result of the premium quality camera sensors. The large 1/3" sensors capture and process enough light to accurately produce recorded images with an effective pixel resolution of 756 x 504.

Built-in 4.6mm Lens

The cameras' fixed 4.6mm lens offers a 50° to 55° field of view.

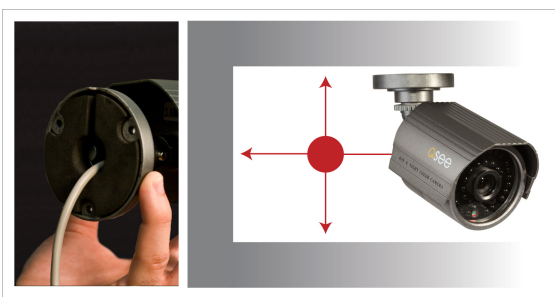

36 Infrared LEDs on each Camera

Each camera comes with 36 premium IR LEDs and is capable of recording up to 100 feet in dark and low light conditions to provide protection day or night.

Weatherproof Metal IP66 Rating

The cameras are encased in IP66 rated, weatherproof metal to ensure they withstand prolonged outdoor exposure.

3-Axis Mounting Bracket

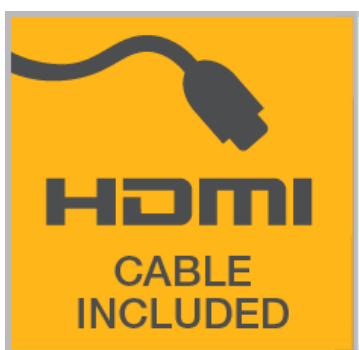

Versatile 3-axis brackets allow each bullet camera to be mounted on almost any surface, such as walls, ceilings or roofs. The brackets' design prevents vandalism by fully encasing sensitive camera wires and eliminating external exposure.

Cable Versatility

4 BNC 60ft cables are included so you have everything you need to get started. Additional cabling can be purchased and used to extend the reach of existing cables.

ADDITIONAL DVR SPECIFICATIONS:

High Resolution Viewing Options

Display high-resolution video on any 19" or larger TV or monitor to take full advantage of the security system's clarity with the HDMI® port and included standard HDMI® cable.

Convenient Backup

Easily save video files from the surveillance system to a PC, Flash Drive or USB Hard Drive in order to free-up space for new video while retaining important footage.

Navigation Menu

A user-friendly interface along with the accompanying mouse and remote makes navigating the system menus a breeze.

1TB WD A/V Rated SATA Hard Drive

A sturdy Western Digital A/V rated, high-capacity hard drive comes pre-installed for the ultimate reliability. The amount of footage you can save on the hard drive before needing to over-write footage will depend on the recording and resolution settings you select. The system can support a hard drive upgrade of 1 SATA hard drive up to 3TB in size.

Three Customizable Recording Modes

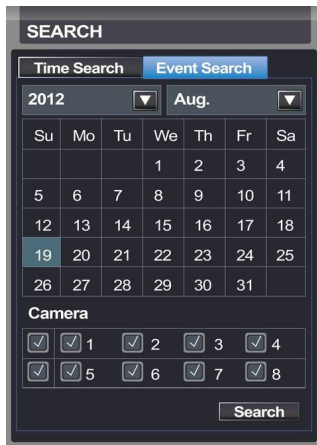

With three recording modes to choose from, the DVR is easily customized to suit your individual surveillance recording needs.

1. Record continuously: Manually start and stop recording
2. Schedule: Trigger recording to start and end at specific times using a daily timer
3. Motion: Trigger recording to start only when motion is detected

1, 4, 8, Auto-sequence Viewing Options

View 4 or 8 cameras at once on a split-screen, or view 1 camera at a time on full screen mode with the option to cycle through each of the cameras at a customizable speed.

Easy Search Options

To easily pinpoint an event, this DVR allows you to search recorded video by either time or by a motion detected event.

Zoom In Up To 2 Times When Viewing Live or Playing Back Footage

Need to zoom in or get a better look at a specific section of live or recorded video? This DVR offers 2x digital zoom for both live and record video. Existing pixels are enlarged to provide a bigger view.
