## OATEY BRAND TOILET FLUSH VALVE KIT

**TECHNICAL SPECIFICATION:** Toilet Flush Valve Kit is a complete solution for replacing standard OEM toilet flushing units. Easy to install, with all key components included: heavy duty plastic flush valve, double thick sponge rubber tank-to-bowl gasket, chemical resistant AquaDial® Flapper, and tank-to-bowl brass bolt kit. Fits most two-piece toilets.

### **DIRECTIONS FOR USE**

Refer to detailed product installation instructions provided on exterior packaging and internal product instruction sheet.

### **PRECAUTIONS**

In-tank toilet bowl cleaners are not to be used with this product. Evidence of in-tank cleaning chemicals used in conjunction with this product

### **COMPONENTS**

- Heavy-duty plastic flush valve
- Double thick sponge rubber tank-to-bowl gasket
