FOR THE WAY IT'S MADE.®

KitchenAid® 12 Cup Thermal Carafe Coffee Maker

Exceptional Performance

Removable Water Tank

Great tasting coffee starts with fresh water. The removable water tank is easily accessible and includes printed water level indicators that make it easy to fill. Once removed, the tank is easy to clean and snaps right back into place.

Refined Brew Process

The combination of refined showerheads and a flat-bottom brew basket evenly saturates the coffee grounds for uniform extraction and maximum flavor.

1- to 4-Cup Brew Cycle

Automatically adjusts the brewing process to optimize the saturation time for maximum flavor when brewing small quantities.

24-Hour Programmability

The coffee maker can be programmed to brew up to 24 hours in advance.

Variable Brew Strength Selector

Provides a Bold setting when a stronger cup of coffee is desired.

Pause and Serve Feature

The Pause and Serve feature stops the brew cycle to allow for pouring a cup of coffee before brewing is finished. A tight seal prevents the brew basket from dripping.

Self-Clean Cycle with Clean Alert

A cycle that's longer than the regular brew cycle to ensure complete cleaning. An alert tells the consumer when the coffee maker needs cleaning.

Enduring Design

Extra-Large Digital Display and Clock

Makes it easy to program and see what selections have been made.

Thermal Carafe with Drip-Less Spout

Thermal carafe keeps coffee hot and flavorful for hours. The drip-less spout on the 12-cup carafe ensures that coffee pours into the coffee cup.

Easy-Access Brew Basket Door

The automatic door includes a push-button latch for easy access.

Flat Brew Basket

The flat-bottom basket holds a uniform depth of coffee for exceptional flavor.

Selectable Auto Shutoff

Allows user to select an automatic shutoff time between 0-4 hours.

Time Since Brewed Feature

Displays when the last pot was made to ensure the freshest coffee.

FOR THE WAY IT'S MADE.®

KitchenAid® Blade Coffee Grinder

BCG111OB

Exceptional Performance

Powerful Blade Grinding Mechanism

The permanently attached stainless steel blade is driven by a powerful 160-watt motor to grind coffee rapidly and with minimum noise.

Fingertip Control

The grinder is easy to stop and start. Simply mount the bowl in the motor housing, attach the clear top cover, and push with fingertips. Beans are rapidly and easily ground to the desired consistency.

4-Oz. Brushed Stainless Steel Bowl with Etched Markings

Bowl easily holds enough beans to brew 12 cups of coffee. The bowl has internal etched measurement markings that display the recommended brew amount.

Enduring Design

Heavy-Duty Motor Housing and Bowl Assembly

The heavy-duty motor housing helps keep the grinder stable during operation. The bowl, blade, and top cover are dishwasher-safe for easy cleanup. The exterior wipes clean with a soft cloth.

Clear Top Cover

Adds durability for years of grinding. There are no seams to trap ingredients.

Safety Switch

Prevents operation if the top cover is not in place.
