

CHP9536SJ

GE Café™ Series 36" Built-In Touch Control Induction Cooktop

Dimensions and Installation Information (in inches)

Important: Requires a 5" free area between the bottom of the cooktop to any combustible material, i.e., shelving. Free area not required when installing wall oven underneath cooktop. Refer to installation instructions. Requires a 15" minimum from cooktop to adjacent overhead cabinets. Units are furnished with a 48" flexible armored cable.

Note: 36" induction cooktops are approved for use over select GE 30" Single Wall Ovens and Warming Drawers. Refer to cooktop and wall oven/warming drawer installation instructions packed with product for current dimensional data. If installed with a GE Telescopic Downdraft System, consult both the cooktop and downdraft installation instructions packed with product before installing. Cooktop gas/electric supply may need to be re-routed to install downdraft. The countertop cutout requires 23-1/2" minimum flat countertop surface and 25" minimum total countertop depth. In addition, other clearances to front edge of the countertop must be considered.

Before installing, consult installation instructions packed with product for current dimensional data.

Approximate Cooking Dimensions

To insure accuracy, it is best to make a template when cutting the opening in the counter

KW Rating	
240V	11.1
208V	9.6
Amperage	
240V	46.3 Amps†
208V	46.3 Amps†
