

## Hallman 18,000 BTU 1.5 Ton Ductless Mini-Split Air Conditioner with Heat Pump 230V/60HZ

The Hallman High efficiency Ductless Mini Split Air Conditioner With Heat Pump System is compact, really quiet, and provides unmatched comfort in any room. All Hallman Mini Splits are equipped with our Inverter Technology which provides optimum power control and extremely efficient operation by modulating the compressor capacity. Hallman Mini Split systems use eco friendly R410A refrigerant in our ductless line. The Hallman indoor units are designed to be eye pleasing, space & energy efficient, fit in any living space, and its competitive price makes it a consumer favorite. For quality, performance, efficiency, choice and service, Hallman is the name to know.

### DESCRIPTION:

- This inverter technology with eco-friendly R-410a refrigerant saves you energy, reduces outdoor noise and keeps the room temperature steady by eliminating the constant starts and stops of conventional systems
- Complete system - includes indoor unit, outdoor unit, complete installation kit, insulated copper line set, and a remote control
- Remote control - makes it easy to program and operate the unit
- Indoor units feature a slim profile with sleek rounded corners and a subtle white finish
- No Ductwork is No Problem with Hallman Ductless (Duct-Free) Mini Split Air Conditioning Systems which can be installed in virtually any location
- Power requirements: 230-Volt/60Hz, single phase powered from the outdoor unit
- Ultra-Quiet Indoor Air Handler displays the temperature (degrees Fahrenheit), functions and error messages
- Auto-restart - in case of power outage, the system restarts automatically to previous settings
- Corrosion resistant outdoor unit paint can withstand direct sunlight, rain, snow and harsh environments
- Area coverage: up to 1170 sq. ft.
- Efficiency rating: high efficiency (SEER 15)
- Capacity: 18,000 BTU Cooling 18,000 BTU Heating (heat pump)
- Functions: cooling, independent dehumidification, and heating (heat pump)
- This unit uses a compressor made by Tohiba, one of the worlds leaders in the advanced Air Conditioning Technology. Its Inverter gives the ability of the unit to continuously regulate its cooling and heating capacity by altering the compressor speed
- The unit offers 3 fan speeds
- Equipment should be sized, selected and installed by a qualified state licensed or certified HVAC professional to ensure proper installation, function, safe operation, adherence to federal, state and local codes and for valid warranty
- 5/7 All parts are warranted for a period of five (5) years to the original registered end-user with proof of proper installation. The compressor is warranted for a period of seven (7) years to the original end-user with proof of proper installation
- ETL Listed
