Fence Swivel Mounting Bracket

Model# - SMBFUS
(For 1-1/4" x 1" rails)

Installation Instructions

Step 1
The ends of panel rails are inserted into swivel mounting bracket .
Place blocks under the panel to hold in at the desired height.

Step 2
Use socket spanner provided to adjust screw fixed with swivel mounting
bracket, Allows panel angles in up/down & left/right direction
(see illustration). Fix panel rail end with bracket with carriage screws
provided(*fig.1*). Mark the location of the mounting holes in the mounting brackets

Step 3
Remove the panel and drill 3/16" diameter pilot holes in the posts
where marked

Step 4
Replace the fence panel with the swivel mounting brackets and secure to
the posts with the tapping screws provided(*fig.2*)
