Counter Top/Built-In Microwave Oven

Menu Action Screen (multi-lingual)

The Menu Action Screen is like having a chef to assist you in the kitchen. It scrolls step-by-step cooking instructions across the display in a choice of English, Spanish or French.

One-Touch Genius Sensor Cook and Reheat

The Genius Sensor adjusts power levels and calculates cooking and reheating times **automatically** for various food types.

Keep Warm Feature

A pulsing delivery of very low microwave power keeps food temperatures at a constant level – without overcooking. So, foods like stew, gravy and desserts remain warm in the oven until ready to serve.

Inverter Turbo Defrost™

Panasonic has succeeded in evolving the Turbo Defrost™, which allows you to defrost foods even faster than previous Panasonic Auto Defrost. Panasonic Inverter Turbo Defrost technology is an advanced microwave sequencing system using the Inverter continuous-power delivery feature.

Elegant Design with Reflective Door/ Push-Button Door Release

Elegant, attractive and easy-to-open, the microwave will look its best even when preparing some of the messiest recipes.

Pop-Out Dial

With a spin of the dial, the easy-to-use pop-out dial is a departure from the standard keypad found on most microwave ovens

Inverter Technology

Panasonic **Inverter Technology** perfects the art of cooking with microwave ovens, delivering delicious flavor, excellent color, superb shape and texture in the foods you cook. The consistent delivery of microwave energy means delicate foods can simmer without the edges and surfaces overcooking. Foods have the look and taste you expect – without the wait!

Built-In Installation Trim Kits

Find the trim kit to match your **Panasonic Microwave Oven**

The Counter Top Microwave Oven can be installed in the wall using an optional matching trim kit accessory.

Microwave Oven	2.2 Cu. Ft.		1.6 Cu. Ft.	
	NN-SD967S		NN-SD767S	
Trim Kit	27" TK-929SA	30" TK-939SA	27" TK-729SA	30" TK-739SA
