Home

MOVE BEYOND STREAMING

Camera utilizes low-power Wi-Fi so you don't have to keep it plugged in. Easily request 5, 10, 20, and 30 second clips of video anytime.

GEO-ARMING

Automatically arm and disarm your home when you leave and return using an intelligent geo-fence. Prefer to manually arm? No problem.

CREATE A NETWORK

Invite trusted friends and family to help protect your home. Our system allows you and your network to be alerted instantaneously when motion is detected.

NOTIFICATIONS OPTIONS

Alerts you in the way you want. Whether it is a notification to your mobile device, or using the IFTT integration to receive e-mail, phone or even Facebook messages.

INSTALLS EASILY NO MONTHLY FEES

A self-contained security system that runs on your existing Wi-Fi network, is completely wire-free, and requires no additional hardware. No hammers, drills, extra routers, outlets or hubs needed.

MOUNTS MAGNETICALLY, ANYWHERE – PIVOTS AND POINTS IN ANY DIRECTION

Camera is anchored to its base with magnets, making it easy to remove when recharging or repositioning. Mount it where you want, but point it where you need.

RECHARGE IT ONCE A QUARTER – OR LESS

Lasts three months on a single charge with typical usage. Installing near outlets and buying batteries are a thing of the past.

No power cord, allows camera to be placed anywhere

Wall

Ceiling

Shelf

How It Works

Motion from Intruder Activates the Camera

Built in Siren and Light Activate to Alert Intruder
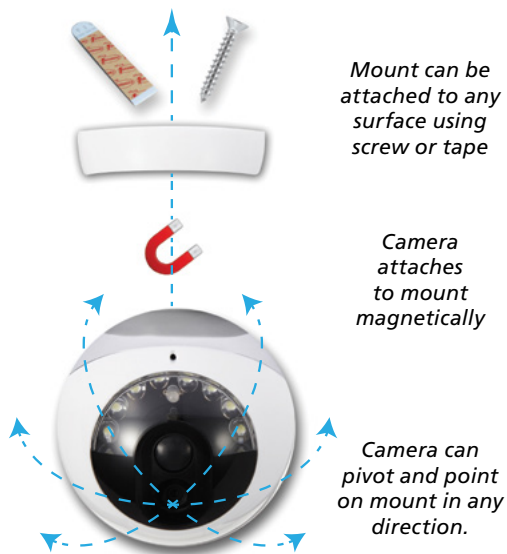

Video Clip is Securely Sent to Your Mobile Device

REMOTE●LYNC

Cordless, Wireless Home Security Camera

PRODUCT DESCRIPTION

The innovative RemoteLync Home Security Camera features an intuitive mobile app that communicates with a cordless, long-life, Wi-Fi camera. The RemoteLync Home Security Camera also leverages your trusted friends and family to make home security more accessible.

When motion is detected, the RemoteLync Home Security Camera app sends an alert via email or push notification to your mobile device, and to the people you set up in your network. At the same time, inside your home, the camera sounds an alarm. Immediately after motion is detected, the camera starts recording video. After receiving an alert, you and your network can view video of the incident. Depending on the situation, you can dismiss the alert or take action. The camera will continue recording so long as it senses motion in your home.

Mount can be attached to any surface using screw or tape

Camera attaches to mount magnetically

Camera can pivot and point on mount in any direction.

Easy to Install

1. Charge Camera and Mount the Device Anywhere
2. Download the Remote Lync Camera App
3. Connect Camera to Your Router
4. View Camera Video from Your Phone Tablet or Computer

TECHNICAL SPECS:

Physical Dimensions	
Diameter	2.583"
Weight	.34 lbs
Mounting	
Base	3M Command Tape™ for inside use
Video Sensor	Magnetic
Imaging Subsystem	
Sensor	CMOS Color Sensor
Lens	Fixed focus, F# 2.0
Field of View	Horizontal: 52.9 deg Vertical: 41.2 deg
Compression	H.264
Frame Rate	1-30 Frames per sec. User selectable.
Video Length	User selectable
Resolution	640x480
Night Vision	White Light LED lighting 41,000 mcd (avg)
Wakeup	<500 milliseconds to 1st image
Wireless Subsytem	
Network Interface	802.11 b/g/n 2.4 GHz
Protocols	TCP, UDP, HTTP, HTTPS, DNS, DHCP, ARP, Websockets
Wireless Security	WEP, WPA-PSK, WPA2-PSK
Wireless Setup	WPS and Wireless SoftAP
Certifications	FCC, CE
Passive Infrared (PIR) Subsystem	
Lens	Fresnel
Operating Current	< 6 μA in non-triggered state
Detection Pattern	82° horizontal, > 5 meters
Audio Subsystem	
Audio In	Mono 16 bit PCM, 32ksps
Audio Out	Plays pre-recorded mono audio, ADPCM, variable rate. 36mm full range speaker. Class-D amp. 81.5dB @ 1 meter.
Power	
Batteries	Rechargeable Lithium Polymer
Battery Life	> 1 quarter and ~1,000 seconds of 5 sec video with LEDs ON **or** ~1,350 seconds of 5 sec video with LEDs OFF
Tamper Detection	
Motion	Server detected
Operating Environment	
Temperature	0°C to 50°C
Humidity	90% RH Maximum
Warranty	
Warranty	1 year limited
