ColdWash™ Option

Now using the cold cycle on your washer doesn't mean compromising how clean your clothes are. ColdWash™ option uses cold water to penetrate deep into fabrics, while saving you money on your energy bill. Cold water savings with warm water performance.

NSF certifies the SANITARY cycle which is intended for reducing 99.9% of bacteria and other harmful microscopic organisms on laundry.

6Motion™ Technology

Get your clothes cleaner and give them a longer life with revolutionary 6Motion™ technology. 6 different wash motions work harder than ever to knock out dirt without being hard on fabrics.

Allergiene™ Cycle

The power of TrueSteam™ penetrates fabrics for enhanced cleaning performance and also reduces allergens by more than 95% with LG's exclusive Allergiene™ cycle.
