

A Clearly Decorative Project:

Wall Vase

Greet your guests with a lovely bouquet of their favorite flower or color. Works on hallways & foyer walls too!

Materials needed:

- Fresh flowers (or the dried variety)
- Scotch™ Tape
- Ribbon
- Glass beads/pebbles (optional)
- Command™ Clear Small Caddy

Steps:

Trim your flower stems—some leaves may need to be removed to fit in the caddy.

Place in a bunch and secure base of stems with tape. Cover tape with ribbon and secure it.

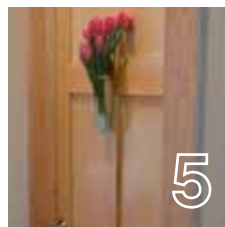

Find a door or wall that you want to showcase your flowers on. Hang the Command™ Clear Small Caddy according to package instructions. Be sure

to clean the surface before hanging the caddy. Follow product instructions for applying and removal. Wait one hour before placing anything in your caddy.

Optional step: put some glass beads or pebbles at the bottom of the caddy (nice for dried flowers).

Place flowers in caddy and add water (if using fresh flowers). Check water level daily to prolong the life of the flowers.
