

Product Description

Motsenbocker's Lift Off #3 Stain Remover (Pen, ink and marker stains) Lift Off #3- 14 oz spray bottle for pen, ink and marker stain remover. Motsenbocker's Lift Off has been developed and patented with a unique application process. Our products are formulated to be used on specific types of stains, rather than only on specific surfaces. For example, when you use Motsenbocker's Lift Off #1 for a coffee stain, the product is designed to work on all surfaces including clothes, furniture, and carpets! You will save time and money because of the versatility and effectiveness of our patented formulations. The Lift Off family of products is currently developed around five distinct categories of stain, paint and graffiti removal. All you need to do is identify what type of stain you wish to remove like a pet stain or a grease stain then just use the correct formula to solve your problem. All of our formulations are numbered and color coded, so that you can quickly identify and use the Motsenbocker's Lift Off product that's right for you. Read on and you'll learn about each of our formulas and how they can help you solve problems each and every day. Motesbocker #3: Lift Off # 3 Pen, Ink & Marker Graffiti Remover is a water-based, biodegradable formulation designed to effectively remove stains and graffiti of an ink nature such as ball point pen, fountain ink, and permanent markers. Consumers love using it to remove ink stains, and contractors claim it's ideal for removing permanent markers stains and graffiti. Designed to work effectively on difficult hard surfaces like buses and phone booths, Lift Off #3 can be used on delicate surfaces such as clothing and fabrics. REMOVES: Inks and Dyes, Permanent Marker, Correction Fluid, Nail Polish and Graffiti WORKS ON: Vinyl, Lexan and Plastic, Dry Mark Boards, Furniture, Fabrics and Bobrick
