# MATERIAL SAFETY DATA SHEET

## PRODUCT AND COMPANY IDENTIFICATION

Product Name: KRUD KUTTER® Metal Clean & Etch

**Synonyms:** Not applicable

Molecular Formula: Not applicable Molecular Weight: Not applicable

**Supplier:**Supreme Chemicals of Ge

Supreme Chemicals of Georgia, Inc. 1535 Oak Industrial Lane, Suite B

Cumming, GA 30041

**USA** 

1

**Intended Use:** Cleaning agent

Emergency Telephone: (CHEMTREC) 800-424-9300

(Non-emergency Telephone) 800-466-7126

## 2 HAZARDS IDENTIFICATION

# **Emergency Overview**

Physical State: Liquid Color: Translucent orange

Odor: Slight Phosphoric Acid odor

WARNING!

Causes skin and eye irritation.

Mist or vapors irritating to eyes and respiratory tract.

#### **Potential Health Effects**

**Inhalation:** Mist or vapor irritating to eyes and respiratory tract. Exposure may cause coughing, asthmatic breathing and irritation.

**Eye Contact:** Causes eye irritation. Exposure may cause eye tearing, redness and discomfort.

**Skin Contact:** Causes skin irritation. Exposure may cause redness, itching and inflammation.

**Ingestion:** Not expected to be an ingestion hazard for intended use. Exposure may cause gastrointestinal irritation, nausea, vomiting, diarrhea and other systemic effects.

**Chronic Health Effects:** None known

**Target Organ(s):** Eye, skin, respiratory tract

**OSHA Regulatory Status:** Hazardous; consumer product use is exempt.

North America MSDS 1/8

### 3 COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name	CAS-No.	Weight %
phosphoric acid	7664-38-2	< 40 %

Components not listed are not hazardous or are below reportable limits

## 4 FIRST AID MEASURES

**Inhalation:** If inhaled, remove to fresh air. Get medical attention if symptoms persist.

**Eye Contact:** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lenses, if worn. Get medical attention.

**Skin Contact:** In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothing before reuse.

**Ingestion:** If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. If vomiting occurs, keep head lower than the hips to help prevent aspiration. Never give anything by mouth to an unconscious person. Get medical attention.

## 5 FIRE-FIGHTING MEASURES

**Extinguishing Media:** Water spray, carbon dioxide, dry chemical or alcohol foam

**Unsuitable Extinguishing Media:** None known

**Special Fire Fighting Procedures:** Wear self-contained breathing apparatus and protective clothing.

Unusual Fire & Explosion Hazards: None known

**Hazardous Combustion Products:** Carbon oxides, phosphorous oxides

### 6 ACCIDENTAL RELEASE MEASURES

**Personal Precautions:** Wear appropriate personal protective equipment. See Section 8.

**Spill Cleanup Methods:** Small Liquid Spills: Wipe up or use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.

Large Spillages: Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Stop leak if you can do it without risk. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Use water spray to reduce vapors or divert vapor cloud drift. Isolate and stay upwind. Ventilate enclosed areas. Keep unauthorized personnel away. Prevent entry into waterways, sewer, basements or confined areas.

## 7 HANDLING AND STORAGE

**Handling:** Avoid breathing mist or vapors. Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Wash thoroughly after handling.

North America MSDS 2/8

**Prevention of Fire and Explosion:** None

**Storage:** Keep container closed. Store in original container. Keep out of reach of children.

### EXPOSURE CONTROLS / PERSONAL PROTECTION

### **Industrial Exposures:**

#### **Exposure Limits:**

8

phosphoric acid	Mexico STEL		3 mg/m³	

**Engineering Controls:** Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.

**Respiratory Protection:** If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA Standard 63 FR 1152, January 8, 1998. Respirator type: Air-purifying respirator with an appropriate, government approved (where applicable), air-purifying filter, cartridge or canister. Contact health and safety professional or manufacturer for specific information.

North America MSDS 3/8

**Eye Protection:** Wear splash goggles and a face shield or safety glasses with side shields.

Hand Protection: Wear chemical resistant gloves.

**Skin Protection:** Wear protective clothing appropriate for the risk of exposure.

**Hygiene Measures:** Eye wash, washing facilities, safety shower

## PHYSICAL AND CHEMICAL PROPERTIES

**Color:** Translucent orange

**Odor:** Slight Phosphoric Acid odor

**Physical State:** Liquid **pH:** No data available

9

**Boiling Point:** 218° C (424.4° F) **Melting Point:** < -1.1° C (30° F)

Flash Point: None

**Evaporation Rate:** < 1 (Water = 1)

Flammability: None

Flammability Limit – Upper (%): Not applicable Flammability Limit – Lower (%): Not applicable Vapor Pressure: 17 mm Hg (@ 20 °C) (68° F)

Vapor Density (Air=1): 3.2 Specific Gravity: 1.1 – 1.3 Solubility in Water: Complete

Partition Coefficient (n-Octanol/water): No data available

**Autoignition Temperature:** Not applicable **Decomposition Temperature:** No data available **Volatile Organic Compounds (VOC):** 12g/L

Viscosity: No data available Percent Volatile: 1%

### 10 STABILITY AND REACTIVITY

Stability: Stable

Conditions to Avoid: None known

**Incompatible Materials:** Strong oxidizing agents, alkalis

**Hazardous Decomposition Products:** Carbon oxides, phosphorous oxides

Possibility of Hazardous Reactions: Will not occur.

### 11 TOXICOLOGICAL INFORMATION

Information available upon request.

Listed Carcinogens: None

North America MSDS 4/8

## 12 ECOLOGICAL INFORMATION

Krud Kutter® Metal Clean & Etch is biodegradable.

## 13 DISPOSAL CONSIDERATIONS

**General Information:** Dispose in accordance with applicable federal, state, and local regulations.

**Disposal Methods:** No specific disposal method required.

**Container:** Since emptied containers retain product residue, follow label warnings even after container is emptied.

### 14 TRANSPORT INFORMATION

DOT: ORM-D

Proper Shipping Name: Consumer Commodity

Packaging Requirements: Inner packagings not over 5.0 Liters (1.3 Gallons) net capacity each for

liquids, and packed in strong outer packagings.

## Packages over 5.0 Liters (1.3 Gallons):

UN-Number: 1805

Proper Shipping Name: Phosphoric Acid Solution

Class: 8

Packaging Group: III

**Emergency Response Guide Number: 154** 

TDG:

UN-Number: 1805

**Proper Shipping Name:** Phosphoric Acid Solution

Class: 8

**Packaging Group: III** 

**Emergency Response Guide Number: 154** 

#### IATA:

For Limited Quantities of liquids of Class 8 Packing Group III:

## Passenger & Cargo Aircraft Packing Instructions: Y819

### Passenger & Cargo Aircraft Limited Quantity Maximum Quantity Package: 1 Liter

Single packagings are not permitted. The inner packagings must be packed in one of the following outer packagings with sufficient cushioning/absorbent material so as to prevent movement/leakage. The maximum quantity must not exceeded. Inner packagings: glass earthenware, plastic, metal (not aluminum), or glass ampoule.

Outer Packaging: Steel packagings must be corrosion-resistant or with protection against corrosion. Glass or earthenware inner packagings and glass ampoules must be packaged with absorbent material in tightly closed metal or rigid plastic receptacles in outer packagings. Glass or earthenware inner packagings and glass ampoules are permitted if this item is free from hydrofluoric acid.

Outer Packaging: Drums: Steel, aluminum, plywood, fiber, plastic.

Jerricans: Steel, aluminum, plastic

Boxes: UN Certified Box, steel, aluminum, wood, plywood, reconstituted wood, fiber board and plastic

North America MSDS 5/8

## Passenger & Cargo Aircraft Packing Instructions: 819

## Passenger & Cargo Aircraft Maximum Quantity/Package: 5 Liters

Single packagings are not permitted. The inner packagings must be packed in one of the following outer packagings with sufficient cushioning/absorbent material so as to prevent movement/leakage. The maximum quantity must not exceeded. Inner packagings: glass earthenware, plastic, metal (not aluminum), or glass ampoule.

Outer Packaging: Steel packagings must be corrosion-resistant or with protection against corrosion. Glass or earthenware inner packagings and glass ampoules must be packaged with absorbent material in tightly closed metal or rigid plastic receptacles in outer packagings. Glass or earthenware inner packagings and glass ampoules are permitted if this item is free from hydrofluoric acid.

Outer Packaging: Drums: Steel (1A2), aluminum (1B2), plywood (1D), fiber (1G), plastic (1H2).

Jerricans: Steel (4A), Aluminum (4B), Plastic (3H2);

**Boxes:** UN Certified Box, Steel (4A), aluminum (3B2), wood (4C1,4C2), plywood (4D), reconstituted wood (5F), fiber board (4G) and plastic (4H1, 4H2).

## Cargo Aircraft Only Package Instruction: 821

## Cargo Aircraft Only Maximum Quantity/Package: 60 Liters

Combination and single packagings are permitted. The inner packagings must be packed in one of the following outer packagings with sufficient cushioning/absorbent material so as to prevent movement/leakage. Combination packagings: inner packagings: Glass or earthenware, plastic, metal (not aluminum) or glass ampoule.

Outer packaging: Drums: Steel (1A2), aluminum (1B2), plywood (1D), fiber (1G), plastic (1H2).

Jerricans: Steel (3A2), aluminum (3B2), plastic (1H2);

Boxes: UN Certified Box, steel(4A), aluminum (4B), wood (4C1,4C2), plywood (4D), reconstituted

wood (4F), fiber board (4G) and plastic (4H1, 4H2).

**Special Provisions:** A3

ERG Code: 8L

### Packages over 5.0 Liters (1.3 Gallons):
