

Night Owl Poseidon-DVR: 8 Channel H.264 DVR (No Hard Drive) with D1 Recording

Night Owl's Poseidon-DVR is an advanced 8 channel H.264 smart DVR that allows you to access it remotely from both the internet via Internet Explorer and/or select 3G/4G smart phones including your iPhone®, Android® and select Blackberry® Models. The system is packed with features like motion activated recording, real time email alerts, digital watermarking of recorded files, USB backup, D1 recording and a simple point and click interface. Stop paying monthly fees for an outdated alarm system, Night Owl's surveillance systems do not charge any monthly fees and gives you 24/7 security day or night. In addition, Night Owl is one of the only security companies with 24/7 technical phone support. Rest assured that you will be able to reach us any time, any day. Customize your system by adding any Night Owl camera(s) and a 3.5" SATA hard drive of your choice.
