LDF6920

Fully-Integrated Dishwasher

Beautiful Design

With a fully-integrated control panel and seamless design, the LDF6920 fits into any kitchen design. The matching commercial handle and material finishes provide a beautiful appearance.

LoDecibel™ Quiet Operation

Enables you to talk on the phone or listen to the TV or the radio in your kitchen while the dishwasher is running. A combination of sound reducing material and the Slim Direct Motor™ ensures low noise.

SenseClean™ Wash System

The turbidity of the water is automatically measured during the first rinse. The water and cycle time are adjusted based on the need for more or less cleaning. This feature provides excellent cleaning, but also water and energy efficiency as well.

Half Load Wash Cycle

Need to wash a small load? The LDF6920 gives you the option to clean dishes on the upper rack only, and in the process uses much less energy.

Hybrid Condensing Drying System

Uses a fan and condensation drying for faster drying, reduced spotting and more energy efficient.
