

Care and Cleaning

Granite Kitchen Sinks

CAUTION: DO NOT USE ABRASIVE CLEANERS SUCH AS COMET, AJAX, SOFT SCRUB, SOS BRILLO OR OTHER SIMILAR METAL SCOURING PADS. YOU SHOULD NOT USE BLEACH OR ALKALI CLEANERS SUCH AS AMMONIA!

Wash your sink using warm water and a soft cloth, sponge or Mr. Clean Magic Eraser. You can use non-abrasive liquid cleaners and detergents as often as you use the sink. Hard water, calcium and lime deposits can be removed with white vinegar on a paper towel rinsing after 20 minutes. To remove discoloration, restore the luster, provide a seal between the sink and outside elements, or to help make cleaning easier and allow you to go longer between cleanings, Weiman's Granite Polish is recommended. To find a supplier near you, go to www.weiman.com.

"Granite Kitchen Sinks" include the following models:

QZAD-3322 / QUAD-3322
QZED-3322 / QUED-3322

QZBS-1816

QZDB-3322 / QUDB-3322
QZLS-3322 / QULS-3322
QZES-3011

Swanstone Kitchen Sinks

CAUTION: DO NOT USE SOS, BRILLO OR OTHER SIMILAR METAL SCOURING PADS!

Ajax, Comet, Soft Scrub, Bon Ami, Barkeeper's Friend or similar abrasive cleaners are safe and effective. Clean using a sponge, a nylon pad such as Scotch-Brite or Mr. Clean Magic Eraser. Food based stains can be removed using a 50/50 bleach and water solution and soaking for 15 minutes. For rust or other mineral based stains, use products such as Lime-A-Way, Rust-Out or Whink. To remove discoloration, restore the luster, provide a seal between the sink and outside elements, or to help make cleaning easier and allow you to go longer between cleanings, Weiman's Granite Polish is recommended. To find a supplier near you, go to www.weiman.com.
