

Plasmacluster Air Purifier FP-A60UW

HEPA Air Purifier with Plasmacluster Ion Technology & Active Carbon Odor Control

Specifications

Model Number	FP-A60UW
Applicable Floor Space (sq. ft.)	300 (Family Room)
Energy Star®	Yes
Plasmacluster® Technology	Yes, High Density (7,000 Ions/cm ³)
Plasmacluster® Ion Modes	On/Off
Filter Types	99.97% HEPA* and Active Carbon Odor Filter with Pre-Filter
Fan Speeds	3 (High/Medium/Low) Plus Quick Clean
Manual Operation	Yes
Purified Air Louvers	Yes, Top of Unit
Control Lights On/Off	Yes
CADR (Clean Air Delivery Rate)	
Dust/Smoke/Pollen	TBD / TBD / TBD
Library Quiet®	Only 29 db on low setting
Air Flow (CFM)	TBD High/ TBD Medium / TBD Low
Power Consumption (Watts)	65 High/ TBD Medium / TBD Low
Standby Power Consumption (Watts)	1
Cord Length	6 1/2'
Average Filter Life*	HEPA- 2 Years - Replacement Filter: FZ-A60HFU Active Carbon Filter- 6 Months - Replacement Filter: FZ-A80DFU
Unit Dimensions (h x w x d) (in inches)	24 3/8" x 15 7/8" x 9 3/4"
Net Weight	TBD lbs.
Country of Origin	China
UPC	074000663183

Plasmacluster Air Purifier FP-A60UW

HEPA Air Purifier with Plasmacluster Ion Technology &
Active Carbon Odor Control

**Recommended for Rooms
Up to 300 Sq. Ft.**

Bacteria, germs, mold spores, pollen, pet dander, smoke and dust can make breathing harder, especially for asthma and allergy sufferers. Sharp's FP-A60U Plasmacluster® air purifier helps remove these irritants with an ultra quiet fan that draws air through a combined pre-filter and odor absorbing carbon filter and a 99.97% HEPA filter. This filter system plus the revolutionary Plasmacluster Ion Technology for air purifiers makes the air healthier and cleaner smelling. The FP-A60U Air Purifier is ideal for a family room. It's a smart solution to enjoying cleaner, healthier, more breathable air.

Features:

Vacuuable Pre-Filter - traps dust, dirt and other airborne particles.

Carbon Filter - Active carbon filter absorbs common household odors and gases

HEPA Filter - captures 99.97% of particles as small as 0.3 microns from the air that passes through it, including pollen, mold, pet dander and dust.

Plasmacluster Technology - splits water molecules into positively and negatively charged ions, which spread throughout the room, surrounding airborne particles. This system effectively restores the natural balance of ions in the air, similar to being near a waterfall or just after a thunderstorm. This restored balance helps refresh the air and leaves it cleaner smelling.

Simple Operation with Quick Clean - 3 fan speeds plus 15 minute automatic Quick Clean

Library Quiet™ - operation is ideal for bedrooms and living rooms. Silent Mode is as quiet as TBD decibels, about the volume of rustling leaves. This is one of the quietest Air Purifiers with a HEPA filter available anywhere.

Energy Efficient - operation means it's easy on your wallet. With its advanced technologies, it is 35% more energy efficient than standard models, making it ENERGY STAR® qualified.

Long Life HEPA Filters - require changing only once every 2 years so operating costs are low.

Note: Filter life varies by individual operating environment
