IMPORTANT: PLEASE READ COMPLETE INSTRUCTION SHEET PRIOR TO ASSEMBLY! Identify all parts packed in carton against the parts list. Remove all protective materials, place parts on a nonabrasive surface to avoid scratching. If any parts are missing or damaged, DO NOT attempt to assemble. Step 1

Place table top (A) upside down on a flat, soft surface.
Remove four rubber bolt protectors located on the underside of table top.

Step 2

Assemble the upper (B) and lower (C) leg assemblies as shown, creating the table base. Please note: the center fitting on the lower leg assembly is located in a higher position than the center fitting on the upper leg assembly.

Step 3

Place the leg assembly on the underside of the table top, aligning the holes in the legs with the bolts on the underside of the table top. If the bolts on the underside of the table top do not align with the holes in the legs, rotate the legs 90 degrees. Attach table to legs using metal washer (E) and nut (D). Cover the nuts with plastic nut caps (M6) (F).
Do not over tighten.

Step 4

Carefully turn the table in the upright position.
Insert plastic bushing (G) into top of center fitting in leg assembly. Your table now is ready for use.
