Dear Customer:

The enclosed Material Safety Data Sheet(s) (MSDSs) is/are being sent as a result of either a request or a recent product order from the Polymer Group, Inc. or one of its affiliates (PGI).

The Occupational Safety and Health Administration (OSHA) mandates the issuance of MSDSs pursuant to the requirements of the Federal Hazard Communication Standard (29 CFR 1910.1200). Although MSDSs are required only for “hazardous chemicals”, PGI prepares MSDSs for most of our products whether hazardous or not. Even for products determined not to be hazardous, PGI believes that MSDSs offer important handling and safety information. To the best of our knowledge, the enclosed MSDS(s) is/are in compliance with the requirements of the OSHA Hazard Communication Standard. In most cases, we have provided more information than is required by the OSHA Standard.

For more information about the contents of this MSDS, please contact the PGI Regulatory Affairs’ phone number listed on the sheet. To obtain copies of MSDSs for other PGI products, call (501) 399-2537 or fax your request to us at (501) 379-2415.

Thank you for your interest in PGI.

Sincerely,

PGI - Regulatory Affairs
