

SAMSUNG

WMN450M Mini Wall-Mount

For 32 in. to 65 in. LED & Plasma TV's

The Samsung WMN450M mini wall mount is your single-mount solution for a wide range of Samsung TVs. So slim that it's practically invisible, the nearly seamless design of the Mini Mount will take your TV from ordinary to extraordinary. An ultra-slim depth of 0.7 in. to 1.6 in. from the wall creates a profile that you simply have to see for yourself. Pivot your TV left or right to adjust it according to the setup of your room. Adjust your wall mount the same way you would adjust a picture frame, using the back stand to tilt your TV upward. You can also use it to easily plug cables in on the side or behind your TV.
