

Early Warning **SUMP PUMP ALARM** and Flood Alert **THP205**

What the Early Warning Sump Pump Alarm and Flood Alert Does

This flood alarm is engineered to emit a loud 105dB signal when the probe sensor end comes in contact with a liquid electrical conductor such as water. The signal is extra loud in order to improve the likelihood that it can be heard clearly from all rooms of a two-story house. The alarm has a 6-foot sensor wire that allows the probe end to be placed as desired to monitor for unwanted water while the alarm body can be mounted on a wall or a wood stud away from potential flooding that would destroy its internal circuitry. Mounting screws and anchors are included. A suction cup is included on the probe tip for attachment to any hard surface. A lead weight is also included that can be attached immediately above the probe end of the sensor wire. This allows the sensor probe to be suspended as desired in a sump pump crock in order to monitor rising water levels in the crock, giving the user an advanced indication of rising water levels or sump pump failure. The alarm tone can also be set to emit a softer musical alert.

You Need to Know

The Early Warning sump Pump Alarm is intended to be a warning device only and cannot prevent damage from unwanted flooding. It is recommended to install a new 9 Volt Alkaline battery every six months. Test the battery by creating electrical continuity between the two metal tips on the sensor probe end. When the battery is low, the tone alarm will sound weak.

One Year Limited Warranty

Reliance Controls Corporation ("Reliance") warrants this product to be free from defects in materials and workmanship under normal use for a period of one year from date of purchase, provided the product has been installed and used in accordance with Reliance's instructions and has not been subjected to misuse, alteration, modification, accident, or repair not performed by Reliance. Reliance's obligation under this warranty is strictly limited to repair or replacement of the product only. The cost of labor to remove the product or install a replacement is not included in this warranty. Reliance shall not be liable for any incidental, special, or consequential damages whatsoever, including damage to person or property resulting from the product's failure to operate in the manner in which it was designed. Use of this product is at the risk of the owner. In the event that this product does not conform to this warranty within the warranty period, the product may be returned with dated proof of purchase to Reliance, at the address below, freight prepaid. Upon verification of defect Reliance shall at its sole discretion either repair or replace the defective product. The forgoing warranty is exclusive and in lieu of all other expressed or implied warranties if any, including but not limited to implied warranties of merchantability and fitness for a particular purpose. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.
