EASY INSTALLATION

- 1 Unique interlocking-edge design for simple installation
- 2 Simply lay overlapping *GripStrip™* of one plank on adjacent plank and press together... No other adhesive required.
- 3 Minimal trimming involved... Just score and snap!

Install an entire floor cleanly, easily in just a few hours.

How much flooring do you need?

- Measure the length & width of your room. If your room has alcoves or offsets, measure these areas separately
- Each 6x36 plank & 12x36 tile carton contains 24 sq. ft. of flooring.
- Recommended purchase of 10% extra will account for trimming variations or cutting floor pieces. The chart below calculates this overage for you.

**This chart is for 6x36 & 12x36 Plank and Tile.
Not applicable to 16x32 size. To calculate for 16x32 planks find the # of cartons on the chart below and multiply by 1.1.*
