More saving. More doing.®

1 Start with a pair of scissors, a spool of fishing line, a box of small S hooks, and your favorite ornaments.

2 Choose a chandelier or light fixture with sufficient hanging space. Attach a single ornament from the central and lowest point.

3 Begin another level of ornaments, placing them a little farther out on the fixture and an inch or so lower than the top of the tree.

4 Use S hooks to make hanging and arranging the ornaments even easier.

5 Continue to expand the tree, placing new ornaments farther out and slightly lower than the last.

6 Continue to check the tree from various angles as you build to keep it symmetrical.
