Alert 750i
Master System

The complete video security system you can set up yourself

Feel more secure, even when you aren't around.

Logitech Alert™ 750i Master System is the complete video security system you can set up yourself and count on when you need it. Install your cameras and software in just minutes without new wires or networking hassles. Log in to our free, secure online viewing site from Internet-connected computers, anywhere in the world. Receive motion-triggered alerts to your e-mail address and mobile phone, and record up to a week of clear, HD video on the included microSD™ card—even when your PC is turned off*. And expand your system—indoors or out—by purchasing up to five additional cameras.

Key Features

- No new wires or networking hassles
- Motion-triggered alerts and HD video recording
- View live video through a free, secure website
- Stores video on included microSD™ card or your PC
- Expand your system with up to six cameras

Feature Spotlight/Focus

Complete digital video security system
Everything you need to get up and running fast—a smart camera, powerful PC software, and a free remote viewing account.

Easy installation with HomePlug® networking
Simple 3-step set up that takes just minutes—install the Logitech Alert software, connect to your network, and plug in your camera. There's no new wiring or networking hassles—HomePlug® networking uses your existing electrical wiring and outlets to connect your cameras to your network and transmit video securely.

Connect

Plug In

HD video (960 x 720 @15fps) and wide-angle lens
High-quality video makes it easier to recognize people and other objects, so you can see more, more clearly.

Motion-triggered recording and alerts
Automatically triggers video recording and can be set up to send notifications to your e-mail address and mobile phone, keeping you informed. You can even specify 16 motion detection zones within the frame.

ALERT
