Your roof can represent up to 40% of your home’s “curb appeal.” Timberline® High Definition® Shingles not only protect your most valuable asset but also beautify your home for years to come—and add to its resale value.

An independent research firm surveyed U.S. homeowners about the brand of architectural shingles they preferred based on appearance. The result: more homeowners preferred the look of Timberline® High Definition® Shingles to the other leading brands.1

In fact, according to a survey conducted by the National Association of REALTORS®, you can increase the value of your home by an average of 5% with a new Timberline® roof!2

So why settle for anything less than a genuine Timberline® roof?

Install To Impress.

Timberline® High Definition® Shingles are unlike any others, thanks to our proprietary shadow bands. Each shadow band is applied using a sophisticated, computer-controlled “feathering” technique. When combined with our randomly blended top layer, it results in a shingle with exceptional depth and dimension—and a striking look unmatched by any other brand.

But don’t just take our word for it. See for yourself. When you compare Timberline® High Definition® Shingles to typical architectural shingles, it’s easy to see why they’ll look sharper and more beautiful on your roof—while enhancing the resale value of your home.

Whatever you’re looking for, there’s a Timberline® Shingle to fit your taste and your budget. The color blends on Timberline® High Definition® Shingles are sharp and well defined—to give your roof maximum dimensionality and depth. Color shown: Hickory

"Your roof is a decision with a long-term impact. So make shingle, roofing style, and color choices that will complement your home and your personal style, providing you with years of comfort and satisfaction."

Exploring Shingle Styles and Colors with Nancy Fire

Nancy Fire, Co-Founder and Creative Director of Design Works International, has defined an exciting trend — taking the Inside Out.

The color and style of your shingle are important. They go hand in hand when considering what shingle to use on your roof. After all, your roof represents up to 40% of your home's curb appeal, so it will always have a big impact on your home's overall look.

Choosing colors for your home's exterior is fun and exciting — and it's also a very significant decision. Remember, the color palette you select will change with the seasons, it's going to be part of your home for the long term. So whether you like bolder colors that make a statement or you prefer more subtle, softer tones, you want to be sure that the palette you choose today is one that you'll still enjoy on your home years from now.

- **Color and Texture add dimension to any home.**
- **The architectural style of your home is a key component when choosing a shingle style.** A Colonial house, for example, might look best with a shingle that features a cleaner, more defined line, while a Victorian home could use a shingle with a more intense hue or a more elaborate and detailed design.
- **A large roof surface is much like a blank canvas, giving you almost limitless possibilities for making a dramatic change in the look of your home's exterior.** But smaller roofs or roofs with more variations in pitch also offer great possibilities for making a dramatic change in the look of your home's exterior. But smaller roofs or roofs with more variations in pitch also offer great possibilities for making a dramatic change in the look of your home's exterior.

Above all, choose the shingle color and style that make you feel the most comfortable. It's your home, your personality, your style. The final decision should reflect that — and do so beautifully!
Designed to complement your home’s exterior color scheme, the American Harvest® Collection will give you that modern architectural style you want, at a price you can afford!

Our fresh color palette combines subtle blends with contrasting colors to give your roof unexpected depth and beauty.
