# Sakrete Fast Setting Cement Patcher; Sakrete Leak Stopper Hydraulic Cement (Gray)

## Safety Data Sheet

Date of issue: 01/20/2014  Revision date: 01/20/2014  Version: 1.0

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

- **Product form**: Mixture
- **Product name**:
  - Sakrete Fast Setting Cement Patcher
  - Sakrete Leak Stopper Hydraulic Cement (Gray)

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture: Various.

### 1.3. Details of the supplier of the safety data sheet

Sakrete of North America
8201 Arrowridge Blvd.
28273 Charlotte, NC - USA
T 866-725-7383

### 1.4. Emergency telephone number

- **Emergency number**:
  - CHEMTREC (800) 424-9300
  - CHEMTREC International +1 (703) 527-3887 24 hr

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

**GHS-US classification**
- Corrosive to Metals 1
- Acute toxicity 4 (Oral)
- Skin Irritation 2
- Serious Eye Damage 1
- Skin Sensitization 1
- Carcinogenicity 1A
- Specific Target Organ Toxicity After Single Exposure 3
- Specific Target Organ Toxicity After Repeated Exposure 1

### 2.2. Label elements

**GHS-US labelling**

- Hazard pictograms (GHS-US)

  ![Hazard Pictograms](image)

- **Signal word (GHS-US)**: Danger
- **Hazard statements (GHS-US)**: May be corrosive to aluminium. Harmful if swallowed. Causes skin irritation. Causes serious eye damage. May cause an allergic skin reaction. May cause cancer. May cause respiratory irritation. Causes damage to lungs through prolonged or repeated exposure.
- **Precautionary statements (GHS-US)**: Keep only in original container. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection. Use only outdoors or in a well-ventilated area. Do not breathe dust. Absorb spillage to prevent material damage. If exposed or concerned: Get medical advice/attention. If swallowed: Immediately call a poison center/doctor. Rinse mouth. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If on skin: Wash with plenty of water. Take off contaminated clothing and wash it before reuse. If skin irritation or rash occurs: Get medical advice/attention. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell. Store in corrosive resistant container with a resistant inner liner. Store locked up. Store in a well-ventilated place. Keep container tightly closed. Dispose of contents and container in accordance with all local, regional, national and international regulations.

### 2.3. Other hazards

**Other hazards not contributing to the classification**: Not applicable.

### 2.4. Unknown acute toxicity (GHS US)

**Sakrete Leak Stopper Hydraulic Cement (Gray)**: 47% of the mixture consists of ingredient(s) of unknown acute toxicity.

**Sakrete Fast Setting Cement Patcher**: 13% of the mixture consists of ingredient(s) of unknown acute toxicity.
Sakre Fast Setting Cement Patcher; Sakrete Leak Stopper Hydraulic Cement (Gray)

The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures after inhalation: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.

First-aid measures after skin contact: In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Call a physician if irritation develops and persists.

First-aid measures after eye contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lenses, if worn. Get medical attention immediately.

First-aid measures after ingestion: If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Immediately call a POISON CENTER or doctor/physician.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: May cause respiratory tract irritation.

Symptoms/injuries after skin contact: Causes skin irritation. May cause burns in the presence of moisture. Skin contact during hydration may slowly develop sufficient heat that may cause severe burns possibly resulting in permanent injury. Do not allow product to harden around any body part or allow continuous, prolonged contact with skin. Handling can cause dry skin. May cause sensitization by skin contact.

Symptoms/injuries after eye contact: Causes serious eye damage. May cause burns in the presence of moisture. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

Symptoms/injuries after ingestion: Harmful if swallowed. May cause stomach distress, nausea or vomiting.

4.3. Indication of any immediate medical attention and special treatment needed

Symptoms may not appear immediately. In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: Treat for surrounding material.

Unsuitable extinguishing media: Not available.

5.2. Special hazards arising from the substance or mixture

Fire hazard: Products of combustion may include, and are not limited to: oxides of carbon.
5.3. Advice for firefighters

Firefighting instructions: Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

6.2. Methods and material for containment and cleaning up

For containment: Contain spill, then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE).

Methods for cleaning up: Vacuum or sweep material and place in a disposal container. Absorb spillage to prevent material damage.

6.3. Reference to other sections

No additional information available.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Avoid contact with skin and eyes. Do not swallow. Avoid generating and breathing dust. Good housekeeping is important to prevent accumulation of dust. The use of compressed air for cleaning clothing, equipment, etc, is not recommended. Handle and open container with care. When using do not eat, drink or smoke.

Hygiene measures: Launder contaminated clothing before reuse. Wash hands before eating, drinking, or smoking.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Keep out of the reach of children. Store in dust-tight, dry, labelled containers. Keep container tightly closed when not in use. Avoid any dust buildup by frequent cleaning and suitable construction of the storage area. Do not store in an area equipped with emergency water sprinklers. Store in corrosive resistant container with a resistant inner liner.

7.3. Specific end use(s)

No additional information available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.2. Exposure controls

Appropriate engineering controls: Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below recommended exposure limits.

Hand protection: Wear suitable waterproof gloves.

Eye protection: Wear approved eye protection (properly fitted dust- or splash-proof chemical safety goggles) and face protection (face shield).

Skin and body protection: Wear suitable waterproof protective clothing.

Respiratory protection: A NIOSH approved dust mask or filtering facepiece is recommended in poorly ventilated areas or when permissible exposure limits may be exceeded. Respirators should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA’s respirator standard (29 CFR 1910.134) and ANSI’s standard for respiratory protection (Z88.2).

Other information: Handle according to established industrial hygiene and safety practices. Do not eat, smoke or drink where material is handled, processed or stored. Wash hands carefully before eating or smoking.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Solid

Appearance: Powder.

Colour: Various.

Odour: Characteristic.

Odour threshold: No data available.

pH: 10 - 13

Relative evaporation rate (butylacetate=1): No data available.

Melting point: No data available.

Freezing point: No data available.

Boiling point: No data available.

Flash point: No data available.

Self ignition temperature: No data available.

Decomposition temperature: No data available.

Flammability (solid, gas): Not Flammable.

Vapour pressure: No data available.

Relative vapour density at 20 °C: No data available.

Relative density: No data available.

Solubility: No data available.

Log Pow: No data available.

Log Kow: No data available.

Viscosity, kinematic: No data available.

Viscosity, dynamic: No data available.

Explosive properties: No data available.

Oxidising properties: No data available.

Explosive limits: No data available.

9.2. Other information

VOC content: 0%, Not applicable; 0 wt, Not applicable.

SECTION 10: Stability and reactivity

10.1. Reactivity

No dangerous reaction known under conditions of normal use. Product slowly erodes aluminium.

10.2. Chemical stability

Stable under normal storage conditions. Keep dry in storage.

10.3. Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid

Incompatible materials. Moisture.
## SECTION 10: Physical and Chemical Properties

### 10.5. Incompatible materials
Wet cement is alkaline and incompatible with acid, ammonium salts and aluminum metal.

### 10.6. Hazardous decomposition products
May include, and are not limited to: oxides of carbon.

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

#### Acute toxicity
- **Quartz (14808-60-7)**
  - LD50 oral rat: 500 mg/kg
- **Calcium sulfate (7778-18-9)**
  - LD50 oral rat: > 3000 mg/kg
- **Calcium oxide (1305-78-8)**
  - LD50 oral rat: 500 mg/kg
- **Calcium hydroxide (1305-62-0)**
  - LD50 oral rat: 7340 mg/kg
- **Sodium carbonate (497-19-8)**
  - LD50 oral rat: 4090 mg/kg
  - LC50 inhalation rat (mg/l): 2300 mg/m³ 2h
- **Aluminum sulfate (10043-01-3)**
  - LD50 oral rat: 1930 mg/kg

#### Skin corrosion/irritation
- Causes skin irritation.

#### Serious eye damage/irritation
- Causes serious eye damage.

#### Respiratory or skin sensitisation
- May cause an allergic skin reaction.

#### Germ cell mutagenicity
- Based on available data, the classification criteria are not met.

#### Carcinogenicity
- May cause cancer.

### 11.2. Information on possible adverse effects following exposure

#### For eyes
- Causes serious eye damage. May cause burns in the presence of moisture. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

#### For skin
- Causes skin irritation. May cause burns in the presence of moisture. Skin contact during hydration may slowly develop sufficient heat that may cause severe burns possibly resulting in permanent injury. Do not allow product to harden around any body part or allow continuous, prolonged contact with skin. Handling can cause dry skin. May cause sensitization by skin contact.

#### For ingestion
- Harmful if swallowed. May cause stomach distress, nausea or vomiting.

#### Other information
- Likely routes of exposure: ingestion, inhalation, skin and eye.
Sakret Fast Setting Cement Patcher; Sakrete Leak Stopper Hydraulic Cement (Gray)
Safety Data Sheet

SECTION 12: Ecological information

12.1. Toxicity
Ecology - general: No ecological consideration when used according to directions. Normal dilution of this product to drains, sewers, septic systems and treatment plants is not considered environmentally harmful.
