

COLORFUL MASON JARS ORGANIZE YOUR CRAFT ROOM

Spray painting Mason jars is easy and brings a colorful look to your organized space. A couple coats of paint and a chalk marker design personalize your jars for whatever room you choose!

ITEMS

- One Case of "Ball" Jars
- Painter's Touch 2X Ultra Cover White Primer
- Painter's Touch 2X Ultra Cover Spray Paint
- Specialty Clear Chalk Board Spray Paint
- Chalk Marker
- Sandpaper
- Drop Cloth
- Lint Free Cloth
- Glass Cleaner
- Mask
- Latex Gloves
- Comfort Grip Nozzle (Optional)

Step 1: Clean each jar with glass cleaner and thoroughly dry.

Step 2: Lightly sand each jar for better paint adhesion and wipe with a lint-free cloth.

Step 3: Over a drop cloth, spray primer on each jar holding it 10-16 inches away. Spray in slow, even coats using a steady back-and-forth motion. Let primer dry for approximately 20 minutes.

Step 4: Apply 1-2 coats of spray paint the same way as the primer, using steady back-and-forth motions for best coverage.

Step 5: Let the first coat of paint dry and apply a second coat within the hour, or after 48 hours.

Step 6: Spray the Clear Chalk Board paint in the same way, applying 2 or more light coats letting each coat dry for at least 20 minutes. Allow 24 hours to fully dry.

Step 7: Rub chalk over the surface of the chalk board paint and erase to prime the surface for writing.

Step 8: Using a Chalk Board Marker, draw designs onto each jar and let dry for about 20 minutes before handling.

Tip: Allow paint to fully cure for approximately 24 hours before use.

As shown: Rust-Oleum Painter's Touch 2X Ultra Cover Primer, Painter's Touch 2X Ultra Cover Satin Seaside, Gloss Deep Blue, Gloss Berry Pink, Gloss Key Lime, Gloss Real Orange, Gloss Grape, Specialty Clear Chalk Board
