What is the problem?

The base of the chair can break during normal use, posing a fall hazard to consumers. The chairs are made of steel and were sold with red or green cushions, or prepared for custom slipcovers with a white liner fabric covering the cushions. Chairs were sold in either sets of two chairs or full patio sets.

What should you do?

Consumers should immediately stop using the chairs and contact Brown Jordan Services, Inc. for inspection instructions and a free repair kit.
